MANITOBA POPULATION ESTIMATES – JULY 1, 2002

	July 02	July 01	Change
POPULATION	1,150,800	1,149,100	Up 1,700
NET MIGRATION	**(July to June)**	**2001/02**	**2000/01**
	Interprovincial	-5,298	-4,323
	Total	-1,864	-1,258

Manitoba's total population was estimated at 1,150,800 persons as of July 1st, 2002, an increase of about 1,700 persons from the July 1st, 2001 total of 1,149,100.

Manitoba's net interprovincial migration loss totaled -5,298 persons for the census year ending June 30th, 2002, up from a net loss of -4,323 persons for the previous year. Manitoba's 2001/02 loss was almost entirely to Alberta (-3,000), Ontario (-1,037) and British Columbia (-1,027), with slightly smaller losses to Saskatchewan (-185), the three Territories (-115) and Nova Scotia (-84). Manitoba gained mostly from Quebec (99), with smaller gains from Newfoundland (30) and Prince Edward Island (26).

Seven out of ten provinces had net interprovincial migration losses in 2001/02. Alberta (26,740) and Ontario (7,266) showed large gains while Prince Edward Island (683) observed a smaller increase. Saskatchewan (-8,635), Quebec (-8,432) and British Columbia (-6,994) continue to report large losses through interprovincial migration.

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded an overall net migration loss of -1,864 persons in 2001/02, compared to the net loss of -1,258 persons in 2000/01.

It should be noted that Statistics Canada has released revised components of population estimates for Canada, the Provinces and Territories. The revised estimates cover the time period from 1997/98 onward. This MBS report incorporates all revisions.
